A Baby's Day

Wonder of all wonder-
ment!
Momentous moment
when small form
First feels life in it-
self.
When new eyes open
wide
On old, old world.
When tiny hands han-
dle air;
Touch tenderness and
love.
When ears first wake
to sound
And silent lips find
voice and food.
Soon newly wakened
baby wearies.
World will keep.
Being born is quite
enough
For one short day.
Baby hands rest;
Baby mouth yawns;
Baby eyes close in
sleep.

son Hughes)

2006 Memories
by ~assyrianbabe107~

Look at the person beside u
Tell me what you see
10 years from now
What do you think they will be?

We sit here in our graduation robes
Thinking I cant wait to get out of here
But I know in your heart of hearts
You will always wanna be near

We didnt want this past 4 years
To go by so fast
But we will always look at them
As the best times that past

We'll always remember the teachers
That were there in time of need
Didnt want anything from us
Just for all of us to succeed

We lost some one loved
In our last year
We remembered him as a great person
While we all shed a tear

You walk up the stage to get your diploma
Eyes become watery with tears
Take a glimpse look of your future
Dont let your heart be filled with fears

On our way to leave
We will say our last goodbye
You will always be missed
